IGCSE Results 4 Year Trends. Here at Wingate School, we try to be transparent with our results - "warts and all"! The analysis below shows all subject exams and the grades our students achieved. What is clear to see that our results continue to be consistently above UK averages. Please remember only 38 Wingate students sat their IGCSE's last summer as compared with hundreds of thousands in the UK. One student's results can have a massive impact on percentages. However, we are very proud of our students and the results they achieve, though we will always continue to strive towards further improving our Teaching and Learning.
